There are hardware men in Detroit who keep a cook-stove at the store door as a sign, and that the stove may not be injured by rust they paint it over. The other day one of them who had a stove with red legs, white covers and a blue top secured an old farmer for a custom-

er. The farmer stipulated for a stove "just like that," and ordered it sent home by the team of a neighbor. A stove of the size and pattern was selected and sent away in good shape, and all was lovely until the next day. Then the farmer and his wife came in with their own team, having the stove in the wagon. The husband held the lines while the wife went into the store and remarked: "When we buy a certain kind of a stove we don't like to be put off with

another." "Why, madam, isn't that stove all right?" asked the man that sold it.
"No, sir, it isn't! you sold my old

man a stove with red legs and white covers, and a blue border around the top, and that one out in the wagon is nothing but a scrub looking old black stove.

"Why-why-" he tried to explain, but she waved him around and declared:

"We're old folks, and we live out among the frogs and owls, but we keep page with the styles just as much as any one, and you can't palm off any scrub stores on us!" The men could hardly lift ten pounds

apiece as they exchanged the nicely pol-

ished stove for the one with red legs, but the old lady thought it was because they were so mad. "There-that stove has got some tone about it!" she muttered as it was londed up. "I don't want to appear capturous, but if style demands a red-legged stove then I go in for the gorgeous with the rest of em, and gild the stove pipe to be of! Detroit Free Press.

### A KICKER.

"This mule," remarked the livery stable man, as they passed the stall where the sleeping animal was leaning up against the partition, dreaming of an Eden wherein there was but one mule and a thousand timid men, "this mule is a kicker." The livery stable man said he didn't mind the loss of the money (as the young man did not take out the fancy rig he was going to look at), for he could more than make that up on the hearse and entriages as soon as the remains came down; but what he hated about it was having the roof of the stable mussed up where the young man went through .-Hanckeye.

Gov. Williams says the Democrats do not mean revolution. A good many other Democrats say so, too. So we may may that the investigation is merely money and lead to more or less excitement; but the people must be amused. It will be remembered that the Southern Confederacy didn't mean revolution, either. All it asked was to be let alone, and if President Lincoln hadn't called for troops and set them to firing off guns and making a fusa, there would probably have been no war.

The testimony given before the Potter investigating committee yesterday is the absorbing theme of conversation in political oirto day, and gives rise to comments which vary in accordance with divergent political predilections. The committee, at the instance of its republican memtion of having the letter read, and it bers, has subpænsed Judge Campbell, resulted affirmatively. It is, in subnow a member of the Dakota supreme court, but formerly judge of the fourth district court of Louisiana. It is claimed he will testify that Anderson made oath hefore to the protest which he (Anderson) yesterday denied having sworn to. Ex-Marshal Pitkin has also been summoned as a witness in rebuttal of certain portions of Anderson's tastimony. In an interview with Gov. Kelloug he was asked how his (Amlerson's) par ish was going, and he replied, about 1,569 democratic majority. Governor Kellogg said that will never do, and suggested that Anderson rally the colored voters of the two polls and carry them, and let the remainder of the pulls go Democratic; remarking further that witness then get up a disturbance, and in consequence thereof throw the Democratic votes out.

L New Locturer in the Field-Also an Army with Banners.

About half-past seven o'clock on Saturday evening the Gold Water Army came down Water street with beaners displayed, on their way to the court-house, where some of its soldiers were to take part in the temperance mass meeting. On entering the room they were conducted inside the bar, and their entrance was the signal for a general ingathering of the people, and the large room was soon filled. After the opening exoreless several of

the children entertained the large audience with recitations and songs, which were well received by the crowd. These exercises by the children occasionally give variety to the exercises at the mass meetings, and at the same time interest the little folks in the temperance movement. A novel feature of the meeting on Sat-

urday night was a speech from Benj. F. Dodson, Jr., who addressed the audience in a style peculiar to hiraself. D. L. Bunn, Esq., also addressed the

meeting and as usual, made an interesting and stirring address. A mass meeting was announced for Thursday evening of this week, and also of private citizens, it is evident that penfor Saturday evening.

Quite a number of new recruits were gathered in, and the meeting was characterized by much enthusiasm and carnest.

## THANKS FOR THE PLOWERS.

Mr B. F. About two hundred of these letters were received by J. R. Gorin, Esq., and fifty of them were distributed in his school yesterday, and about an equal number in the Preabyterian school, the other hundred being divided among the other schools for distribution, there. Below is a copy of the letter, which will be read with interest by all who knew of the sending of the flowers.

MORE VANDALASSI.

This time the High School Yard is the Scene of Operations.

On Saturday night last, some person or persons who are too mean to live in civilized society, entered the high school yard and cut down and almost entirely destroyed two beds of choice geraniumsone containing forty beautiful plants, and the other nearly as many. They were not taken up and carried away, but simply cut down and destroyed, showing that the perpetrators were actuated by pure deviliahness. A fine bed of rare and beautiful pinks shared a similar fate, the plants being pulled up and scattered about upon the ground. Two tine oleanders, in pots or tubs, which sat upon the stone stops, were cut down, as were also two bunches of peoples. A pane of glass was broken from a window in the superintendent's office, one from the transon over the front door, and two from another window. This part of the mischief was done with lumps of coal.

That Decatur has within its precincts anybody who is mean enough to do such work as that described above is to be regretted, but as similar outrages have frequently been committed in the grounds ple who do that kind of business dwell among us. What motive can prompt to such deeds as those, it is difficult to conceive, but certain it is that they disclose a degree of meanness better suited to demons than to human beings. If this kind of misching is repeated citizens should organize for self-defense and establish a watch that will detect and punish the vandals.

## AN ASTONISHING FACT.

A large proportion of the American people are to-day suffering from the effects of Dyspepsia or disordered fiver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasant existence of enjoyment and usefulness as it ought to be. There is no good reason for this, if you will only throw aside prejudice and skeptleism, take the advice of Druggists and your friends, and try one bottle of Green's August Flower, your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues, with satisfactory results in every case. You can buy a sample bottle for 10 cents to try.
